

MADE IN INDIA · INDUSTRIAL FASTENERS

A&C Enterprise

— PRECISION · PERFORMANCE · PROGRESS

Fasteners engineered to *hold industries* together.

High-quality metal fasteners across steel, stainless steel, and aluminium — manufactured with precision, delivered on time, backed by end-to-end enterprise support.

PRECISION

Every fastener engineered for exact fit and consistent quality.

PERFORMANCE

Built for strength and durability in every application.

PROGRESS

Driven by innovation and partnerships built to last.

WHO WE ARE

About A&C Enterprise

We go beyond supply. Every order – small or large – receives the same commitment to quality and precision.

OUR SERVICES

- Product design & technical consultation
- Custom fastener development
- Prototyping and sampling
- Flexible manufacturing – small to large volumes
- Reliable, on-time delivery

At A&C Enterprise, we supply high-quality, Made-in-India metal fasteners built for the demands of modern industry.

We specialise in a wide range of industrial fasteners – Bolts, Nuts, Washers, Screws, Blind Rivets, Blind Nuts, and custom metal components – manufactured with precision and consistency. Available in steel, stainless steel, and aluminium, across multiple grades, sizes, and specifications.

Whether you need standard fasteners or fully customised components, every product we deliver meets strict performance and durability standards.

Built on integrity, transparency, and long-term partnerships, we give every order the same commitment – whether it is a single prototype or large-scale production.

We don't just supply fasteners – we build connections that hold industries together.

Our Products

6 product categories · 50+ variants · Steel, Stainless Steel & Aluminium

BOLTS

01

- Hex Bolt
- Carriage
- Anchor
- Eye Bolt
- U-Bolt
- Socket Head
- Flange
- Stud
- Threaded Rod

NUTS

02

- Hex Nut
- Lock Nut
- Nylock
- Wing Nut
- Cap Nut
- Flange
- Square
- Coupling

WASHERS

03

- Flat
- Spring
- Plain
- Lock
- Fender
- Square
- Sealing

SCREWS

04

- Self-Tapping
- Machine
- Wood
- Sheet Metal
- Drywall
- Allen (Socket)
- Set Screw
- Concrete

BLIND RIVETS

05

- Open End
- Closed End
- Multi-Grip
- Unigrip
- Solid Rivet
- Structural
- Monobolt

BLIND NUTS

06

- Plain/Round
- Splined
- Semi Hex
- Full Hex
- Clinching Nut
- Clinching Stud
- Standoff
- Weld Nut

HEX BOLT

Standard, versatile, widely used

CARRIAGE BOLTS

Ideal for wood & smooth finishes

ANCHOR BOLTS

Perfect for concrete & structural support

EYE BOLTS

Designed for lifting & rigging

U-BOLTS

Best for pipes & tubing support

SOCKET HEAD BOLTS

High strength for compact spaces

FLANGE BOLTS

Even load distribution

STUD BOLTS

Heavy-duty & high-pressure use

THREADED ROD

Continuous threading, flexible use

Nuts

HEX NUTS

Standard for general applications

LOCK NUTS

Prevents loosening from vibration

NYLOCK NUTS

Nylon insert for extra grip

CAP NUTS

Closed-end for safety & clean finish

FLANGE NUTS

Built-in washer, load distribution

SQUARE NUTS

Strong grip, heavy-duty use

COUPLING NUTS

Joins two threaded rods

WING NUTS

Easy hand tightening, no tools

Washers

FLAT WASHERS

Even load & surface protection

SPRING WASHERS

Prevents loosening from vibration

PLAIN WASHERS

Basic spacing & support

FENDER WASHERS

Large outer diameter coverage

SQUARE WASHERS

Heavy-duty structural support

LOCK WASHERS

Extra grip for secure fastening

SEALING WASHERS

Leak-proof for fluid applications

Screws

SELF-TAPPING SCREWS

Creates own threads, no pre-tapping

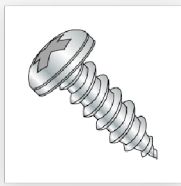

MACHINE SCREWS

Precise fastening in machinery

WOOD SCREWS

Strong grip for wooden surfaces

SHEET METAL SCREWS

Perfect for thin metal sheets

DRYWALL SCREWS

For gypsum & partition work

SET SCREWS

Secures components without a nut

CONCRETE SCREWS

Reliable fastening into masonry

ALLEN (SOCKET) SCREWS

High strength for compact spaces

Blind Rivets

OPEN END BLIND RIVET

Standard general applications

CLOSED TYPE RIVETS

Sealed end, leak-proof performance

MULTI-GRIP RIVETS

For varying material thickness

UNIGRIP RIVETS

One rivet for multiple grip ranges

STRUCTURAL RIVETS

High strength, heavy-duty use

MONOBOLT

High-strength structural fastener

SOLID RIVET

Permanent high-strength fastener

Blind Nuts

PLAIN / ROUND BLIND NUT

Smooth body, general-purpose

SPLINED / SERRATED BLIND NUT

Anti-rotation via serrations

SEMI HEX BLIND NUT

Partial hex for anti-rotation

FULL HEX BLIND NUTS

Maximum anti-rotation strength

CLINCHING NUT

Pressed into sheet metal panels

CLINCHING STUD

Permanent stud in thin sheets

STANDOFF NUT

Creates spacing between components

WELD NUT

Welded for permanent installation

GET IN TOUCH

Let's build something *stronger together.*

Whether it's a standard order, a custom requirement, or a technical consultation – we're ready to help.
